Take Control!

You won't be "Booby Trapped" any longer! Sassybax offers women comfort and sexiness.

As the unhappy recipient of a curvy shape and large chest, I have spent my lifetime looking for bras that are comfortable and durable. So many bras are heavy on bulky fabric, hooks and seams. I was fortunate enough to come across Sassybax, founded by Amanda Horan Kennedy, a former Hollywood Actress on TV shows including Cheers and Dallas and a psychotherapist. You've probably seen these bras on Good Morning America or in Time Magazine. Sassybax are essentially control top panty hose in a bra form. The microfiber and spandex fabric are meant to smooth out "bra bulges" and give their wearer a slimmer torso and top without binding. They have no seams, hooks or back

closures and they accommodate sizes from A to DD cup.

My Sassybax Bralette and Torso Trim came well packaged and quick. But I was skeptical when I took it out of the package, because the fabric is so soft I didn't think it could hold in my chest and body as promised. However, everything stayed in place and I was very comfortable all day. Many bras ride up to the middle of my chest during the day or lift, that was not the case with the Sassybax Bralette. It stayed perfectly in place; no riding up, no falling straps. They are a great option for those looking to conceal extra baby weight or those simply looking for a smooth, lighter bra that holds you in place. I highly recommend the Bralette for regular wear or even as a sports bra.

Sassybax are available at Sassybax.com and range in price from \$58.00 to 68.00.
